

TECHNICAL DATA SHEET

Conmaster(L), Conmaster(P)

PRODUCT DESCRIPTION

Conmaster is basically a high performance water reducing agent for concrete admixture. However, it also can contribute to concrete mixture as a strength enhancer, concrete retarder, pumping aid.

USAGE

Conmaster is mainly use in Concrete admixture for reducing water, securing liquidity and improving strength. Accordingly, it is frequently used in construction industry. Furthermore, the material also can apply to gypsum board

TECHNICAL DATE

Test Item	CONMASTER(L)	CONMASTER(P)	Show in
Condition in Container	Good	Good	Good
Solid Content	Min 40	Min 92	%
SO ₄ ²⁻	Max 1.5	Max 3.0	%
PH	7 ~ 9	7 ~ 9	–
Specific Gravity	1.18 ~ 1.22	0.6 ~ 0.8	–
